

Christchurch School, Swansea

Major conversion and refurbishment work was necessary when the school age was changed from 3 - 7 to 3 - 11.

The school was rearranged to provide the best possible use of the limited space available. A prime concern was to introduce natural light into the building and colour was used to provide character to the spaces.

The work was carried in 2 phases starting in 1999 and completing in 2000

Contract value - approx £400,000
